BANGOR DAILY WHIG AND COURIER.

BY SMITH & SAYWARD. TUESDAY, OCTOBER 12, 1847. VOLUME XIV.....NUMBER 88.

JULES HAUEL'S PREPARATIONS!

TRY THEM, AND JUDGE FOR YOURSELF!

TO THE PUBLIC.

Wonderful! That's Right — A proper Principle adopted.

YOU cannot object to giving my articles a trial. If they are not found to be as represented, return them, and your money will be cheerfully refunded.—Remember, there is no quackery, no humbug, here. A trial will cost you nothing, and if any one is humbugged, it will be myself. With the utmost confidence I recommend to the particular attention of the public the following articles: First—

MY EAU LUSTRAL HAIR RESTORATIVE.

This universally approved and admired article, free from ardent spirits, pungent aromatic oils and other deleterious materials, cleanses the hair expeditiously, renders it beautifully bright, and imparts to it the delicate fragrance of the flowers. It excites the scalp to a new and vigorous action, cleanses it from scurf and dandruff, and its effect in the restoration and growth of the hair is unequalled by any other preparation of the kind. Second—

MY EAU DIVINE DE VENUS AND NYMPH SOAP.

Composed of an Eastern Botanical Discovery of Surprising Efficacy, for rendering the SKIN SOFT AND FAIR, as well as imparting a Delicate Roseate Hue to the Complexion.

No lady's toilet is complete without this article. Its effect on the skin is strikingly beautiful. It removes all harsh or scaly substances, and leaves a delicate roseate hue that cannot be surpassed. Third—

MY SHAVING CREAM.

It is a luxury to shave with Jules Hauel's Premium Cream.

This Cream is acknowledged by all who have used it to be superior to any in use. It produces a fine lather. It does not smart or irritate the skin, on the contrary, it is very soft and highly emollient. No person will use any other, after once using this admired preparation. Fourth—

MY DEPILATORY POWDER.

This Powder has never failed to produce the desired effect. Its composition is unlimited, and warranted to remove superfluous hair. Many ladies have used it, who were afflicted with hair on the sides of the face, neck, &c., giving a masculine turn to the features, and who testify of its happy effect. Fifth—

MY CELEBRATED VEGETABLE LIQUID HAIR-DYE.

A Chemical Result, to enable persons to dye their hair in instantaneously, without the least inconvenience.

"My white hair has been changed like magic by using one box only of Jules Hauel's celebrated 'Vegetable Liquid Hair Dye.'"

For changing red or gray hair, whiskers, eyebrows, &c., to a brown, black, or chestnut color. The slightest evil consequences need not be feared from its use—it is altogether harmless. This composition is the only one warranted by Chemists of celebrity, to dye, in an unfailing manner, the various gradations of color, without danger or inconvenience, and has justified the liberal patronage and submitted confidence of the public.

☞ *Beware of Counterfeits!* Ask for "Jules Hauel's Vegetable Liquid Hair-Dye," if you want the genuine article. Sixth—

MY UNRIVALLED ROSE TOOTH PASTE,

Is universally sought after, for the pearly whiteness it gives to the teeth, without the slightest injury—Seventh—

MY CELEBRATED PERSIAN OR CHINESE POWDER.

Patronized by the Fashionable World of the United States and under the immediate patronage of the Ladies.

This powder is unequalled for the purpose, for restoring, beautifying and preserving the complexion, rendering the skin delicately white, smooth and soft, preventing cutaneous eruptions, chapping, and obstructing cutaneous perspiration. Travellers and residents in warm climates will highly appreciate this grateful appendage to the toilet.

NINE HUNDRED DOLLARS REWARD

Will be paid to the person who will prove that Jules Hauel's *Vegetable Liquid Hair-Dye* is not the best,—the very best yet known in this country or in Europe.—This valuable discovery will enable persons to dye their hair, whether it be the hair or whiskers, in a few minutes, without the least inconvenience. This preparation is warranted not to wash out, nor to injure the health of the hair, but retains all its gloss and brilliancy.

From a celebrated Chemist of the City of Philadelphia.

"It is with a high degree of pleasure that I can bear testimony in favor of your *Eau Lustral Hair Restorative*. I have been surprised by its wonderful and beneficial results, and have no hesitation in saying, that I believe it to be the most valuable and extraordinary discovery ever known for restoring and reproducing a fine and luxuriant head of hair. Having tried the *Nymph Soap, Hair Dye, Rose Tooth Paste, Depilatory Powder, and Shaving Cream*, I must say that they are scientifically compounded, and that it is a real luxury to use them. Yours, &c

JOHN PARR, Chemist,
President of the Manufacturers' and Mechanics' Bank, Philadelphia.

MR. JULES HAUEL:

Try it! Try it! It is furnished Gratis!

The most positive and convincing proof of the superiority of an article depends on the favor and satisfaction it has received from those who have used it—With respect to my *Shaving Cream*, it is always used with satisfaction, and has everywhere met with unqualified approbation.

Those persons who have not made use of this delightful preparation may, by calling at the Store of the Proprietor, No. 13, CHESTNUT Street, receive, without charge, a small box for trial, and be enabled to form a correct and just judge for themselves.

Prepared and sold, *Wholesale and Retail*, by

JULES HAUEL, Practical Chemist and Perfumer.

An Extract from the Report of the Judges of the "Franklin Institute of Pennsylvania."

"After a minute and careful examination of the preparations submitted to our notice by Jules Hauel, Chemist and Perfumer, of the city of Philadelphia, we do not hesitate to pronounce them highly valuable preparations, well calculated for the toilet."

READ THE CERTIFICATE!

"The Franklin Institute, of the State of Pennsylvania, for the Promotion of the Mechanic Arts, have awarded to Jules Hauel, of Philadelphia, their Testimonial of their approbation for the skill and ingenuity displayed in the manufacturing of his inimitable 'Eau Lustral Hair Restorative,' and other perfumery, deposited at their late Exhibition of Domestic Manufacture in the city of Philadelphia.

(Signed) J. V. BIDDLE, President.
J. SMITH LEKENS, } Vice-Presidents.
THOS. FLETCHER, }
J. S. GARRIGUES, Rec. Secretary."

From CONSTANT GUILLOU, Esq., Attorney at Law, and Notary Public, Philadelphia.

"From personal acquaintance with Jules Hauel—an experienced and fashionable Perfumer and Chemist—I was prepared to appreciate the numerous testimonials in favor of his different fashionable preparations. On trial of them in my own family, and some of them personally, I have more than realized these favorable anticipations;—they are, what they profess to be, scientifically prepared and compounded. I have at all times found my experience, been convinced of the great merit of the *Eau Lustral Hair Restorative, Shaving Cream, Nymph Soap*; and, in fact, all the popular preparations of Mr Hauel.

It is with the greatest pleasure that I can recommend the above articles to all of my numerous friends, and the public. They are, in their way, invaluable.

CONSTANT GUILLOU."

From DANIEL J. DESMOND, Esq., Attorney at Law, Consul General of Portuguese States, Vice Consul of Austria, Sardinia, Portugal and Tuscany.

"To Mr. JULES HAUEL:

Sir—Though I have not the pleasure of a personal acquaintance with you, yet a sense of duty to yourself and the public generally, constrains me to bear my unsolicited testimony in favor of your different fashionable preparations. On trial of them in my own family, and some of them personally, I do positively declare that they are what they professes to be, skillfully prepared and compounded. I am convinced of the great merit or merits of the Eau Lustral Hair Restorative, Shaving Cream, Nymph Soap and Rose Tooth Paste. I am fully satisfied of their intrinsic worth, and do cheerfully recommend them to all for the use and purpose they are intended. Nothing can equal the beauty and lustre imparted to the hair by the use of the Eau Lustral Hair Restorative. It invigorates the hair and promotes its growth. The Shaving Cream is unsurpassed and decidedly excellent, being a fine and delightful compositon—it does not smart or blister the skin, while the Nymph Soap operates beneficially upon the pores of the skin, and renders it fair and pliable. The Rose Tooth Paste imparts to the teeth a pearly whiteness, and is well calculated to preserve the teeth and gums from decay. They are in their way invaluable.

"I have seen many of my friends who have used your Vegetable Liquid Hair Dye; its effect is really a wonder. It dyes the Hair in an indelible manner in a few minutes, and the color of the hair is really beautiful and none will detect the artificial colors, as it does natural. Yours &c.

DANIEL J. DESMOND.

BEST PROOF IRON,

FOR ROOFING, WINDOW SHUTTERS &c.

THE subscribers beg to call the attention of all those interested in roofing, to their GALVANIZED TIN PLATES, and to the many advantages which they possess over all metal and other substances hitherto used for this purpose, possessing as they do, the strength and lightness of iron without its liability to rust, having now been tested several years, both in this country and in Europe. They are also less subject to expansion and contraction from sudden changes of the atmosphere, than common Tin Plate, Iron, Zinc, &c., or any other metal now used for roofing, and consequently form a much better and tighter roof; requiring for the first and only repair, what the first cost is but a trifle more.

The subscribers would also call the attention of all dealers and workers in metals, to the many other purposes to which Iron thus protected, can be applied. In general terms it is applicable to all articles of iron which it is desirable to protect from the action of the atmosphere. And would especially call the attention of those interested in TELEGRAPHIC LINES, to their Galvanized Wire, which is now almost entirely used in Europe, and which answers every purpose as a conductor of electricity, costing only about one half as much as copper, and possessing equal durability with that metal.

Having lately erected works in this city for the purpose of galvanizing Nails, Spikes, Bolts, Wire, &c., they will be able to furnish any article which may be desired. A supply of Plates (manufactured in Europe,) constantly on hand, from 16 to 32 inches wide.

GEO. B. MOREWOOD & CO.,
Nos. 14 and 16 Beaver-st., New York.

The Patent Right for this article has been secured for the United States as well as Great Britain, and other European countries, and all legal measures will be taken to prevent any infringement by importation or otherwise. cowd&w1y

L. & W. T. ADAMS beg leave to inform their friends and the public, that they have taken the above new and splendid Hotel.

THE ADAMS HOUSE was erected during the past season to supply an obvious demand for increased and superior accommodations in this City. It is built of Quincy Granite, and contains *one hundred and fifty Rooms*, conveniently arranged in suits and single apartments, well ventilated, and supplied with an abundance of pure soft water.

The Furniture was made to order from the best patterns, with a view to combine as well to comfort and convenience, as luxury and splendor.

We have devoted unusual attention to the selection of Servants, and our Guests may rely upon prompt and polite attendance.

WINER'S

CANADIAN VERMIFUGE!

A CERTAIN REMEDY FOR WORMS.

THIS remedy is safe in its operation and more easily administered than any other.

THE GREATEST CAUSE OF DEATH among children is to be attributed to Worms. They give rise to numerous diseases, and are the more fatal because least suspected; were parents to give this subject more attention and carefully observe the symptoms which indicate the existence of worms in bowels, *the lives of many children would no doubt be saved.* Some of the symptoms are as follows; the countenance is of a pale or sallow color, and suffused with occasional flushes, the eyes are heavy and dull, bad breath, itching in the nostrils, the sleep is disturbed, the patient often awakens in great fright, and is liable to starting and grinding the teeth, the appetite is irregular, being sometimes voracious and another times feeble, occasional vomiting, &c.

Winer's Canadian Vermifuge has acquired a reputation far exceeding that of any other medicine of the kind, and is daily increasing in popularity, wherever it is known and used, it is *universally approved*; it possesses a properties which no other article of the kind does, it is *prompt and efficient* in its action, and entirely free from ingredients which have any but a beneficial effect, the health of the patient being always improved even when no worms are discovered. Physicians prescribe it, and to use the language of one in high standing, who resides in Cleaveland, Ohio, consider it "the only article of the kind he ever saw that was so uniform and prompt in expelling worms, that may, indeed be relied on with the utmost confidence, as it has *never been known to fail*; this is the reason why *all* who have used it will not use any other.

We have in our possession a number of certificates from physicians and others of the highest respectability, who all testify to its superior efficacy, and recommend it as a never failing remedy.

READ AND BE CONVINCED.

We, the undersigned have frequently administered a medicine prepared by Mr John Winer of this town, designated "J. Winer's Canadian Vermifuge," and being fully satisfied with its efficacy, confidently recommend it as a safe and efficient remedy for the expulsion of worms from the intestinal canal.

New York, March 30th, 1847.

Messrs. J. Winer & Co.: Sirs—My child of five years of age, was for more than two years severely afflicted with worms, during which time we gave her different medicines recommended in such cases, but they produced no beneficial effects. I at length procured a bottle of your Canadian Vermifuge, and gave it to her, which caused to pass a large number of worms, since then she has been in the enjoyment of perfect health. From my own experience, I would recommend your Vermifuge as being the most safe and effectual remedy for worms now in use. Yours truly,

C. G. SNETHEN, 30 Rivington st.

☞ Be particular and remember the name "Winer's *Canadian Vermifuge*," this is the only article that can be depended on. *Remember this.*

ECONOMISTS!

PAINT.

AFTER experimenting for several years the subscriber is able to offer to the public an article of

CHEAP PAINT,

with which Dwellings, Out-Houses, Barns, and Fences are painted, and have a neat and handsome appearance. Its cost, compared with Oil Paint, is very trifling, yet it is very handsome and durable. It has been fairly tested, and found to be applicable to

WOOD, STONE, and BRICK WORK, outside—and to

CEILINGS, PLASTERED WALLS, &c., inside. Old Buildings and Fences, which have been standing for ten or twenty years without being painted, are now coated with this composition, and have an appearance nearly equal to new.—Boards upon buildings and fences which have not been planed; are readily covered with it, and it is a very superior article for covering white wash which incline to rub off, for it perfectly prevents the rubbing off, and is very brilliant.

From the Christian Register

Rev. Mr. Hedge's Letters.

Leipsic Aug 21st 1847

Since crossing the Rhine at Mayence, I have travelled through a great part of Germany, and have seen the most interesting things which that country—accordingly to Italy in its time and at any rate—can exhibit. The first three days were spent at Frankfort on the Maine, the birthplace of the German Confederation and the seat of its assemblies, the city of the Roman German emperors as the scene of so much magnificence and images past interesting to me as the birthplace of Goethe. I saw the house in which he lived, the house where he was born, the Stadel and Gemalde gallery, the theatre, the Jews' quarter, in particular, and visited Hanau from Hesse Cassel, Hesse Darmstadt and Hesse Homburg. In this last place stands the house in which the great poet was born.

I certainly did not imagine that in Strasbourg I should see the two—the stage player and the prima donna. A strange association of Genius, or, generally, noble, one of the lord of the lyre place. In a high old ancient house still an amphitheatre and a theatre now occupied by one of the Sentinels of the City. Such story piles over the whole building, in the style so common in the seventeenth century the gable projecting nearly three feet beyond the basement. It bears the inscription *In die ima Hanse ward Goethe geboren.* Hansel it has two faces. The old and the new are brought into strange contrast. I thought the association of the old Rhenish chestnuts with its musical associations which he loved so well and the gas illuminated, railway traversed English swarming Frankfort of the present day, the centre of travel and traffic.

In Eisenach I climbed the Wartburg where Luther was hidden after the diet of Worms and saw the room in which he sent the Bible. The blot on the wall where he hurled his inkstand at the Devil who appeared to him during the night to disturb his translating, is now more but instead of the room in the plaster the blackened poet having been cut out and abstracted as some say as relics by the keeper informed me he was interrupted in his quarters who took advantage of his leave of his room in himself—a wise well—to the window commanding a magnificent view of the Thuringian (for the Wartburg is situated on the top of the mountains) where the mountains of the north seemed within reach. I can imagine how it must have refreshed the heart of the stout reformer in the intervals of labor. A curious detail is the property at Luther's parents—the table at which, as the keeper said "Martin was brought up (*grossgezogen* wurde) was purchased by the Government since the time since of a remote branch of the family to which it had descended and very aptly placed in the room together with some old pictures of Hans Luther and his wife of Martin and his wife, of the Duke John and Frederick by Lucas Kranach and others—The only piece of furniture which remains from the time of Luther's occupation is one of the vertebrae of a human skeleton which is supposed to have been used by him for isolation in the accompaniment to the romantic enterprise in which he was engaged.

Dresden I appreciated more in everything but the far famed Sistine Madonna, which transcends all criticism and seems less a creation of human hands than a real presence of superhuman beauty. Prague on the other hand the city of Liberna and Charles IV, reminded me of the Cathedral and Hermitage, in particular as I spoke Faust from Hermann and Dorothea and Hermann in the Hermitage

Alkaloid Xabon,

FOR CLEANSING TEETH.

IN the preparation of this article there is nothing used which will prove in the slightest degree injurious to the structure of the Teeth as its chemical components preclude the possibility of injury to any of the properties entering into their composition From its alkaline principle, it neutralizes the vitiating fluids of the mouth whether arising from acid eructations of the stomach, or the decomposition of food collected about the interstices of the teeth and gums by its removal, preventing the deposition of tartar causing the teeth to assume a clear surface free from the usual stain at the junctions of the gums, in consequence of the use of the various dentrifices now in vogue removing from the breath the unpleasant odors usually attending the above diseases

SILVER'S PATENT STEAM SPACE.

THE PATENT STEAM SPACE has for its object and purpose of [illegible] the heat of a dwelling house, produced from the fire in the furnace, and conducted from the furnace to the several rooms or portions of buildings to be warmed, through the medium of valves or registers, for such purposes inserted in the floors or ceilings of the rooms. [illegible] and has now comparatively, have become acquainted with its utility

The apparatus is placed in the cellar or basement of the building to be warmed, and when convenient directly under the principal rooms to be heated, and appear in good chimney flues altogether unobtrusive. By this mode of warming dwelling houses, the dust filth and rubbish resulting from the use of stoves, grates or stoves are all removed to the cellar room, out of the way, and nothing is admitted to the room but the beautiful and pure warm air

This method of warming meeting houses, hospitals, and other buildings promotes ventilation, which is a most valuable consideration — for people in health nothing more agreeable for the sick, nothing more necessary — winter the warm air is evenly and gently wafted through the rooms, diffusing comfort everywhere, and in [illegible] be in all its parts of cast iron set in the walls of brick masonry The pipe or burner being whole, is found by experience to be more durable than those made of [illegible] and less liable to emit gas into the hot air chamber

3 The great radiating surfaces of this furnace exceed those of any other and are so constructed that the heat acts actively upon those surfaces within and produces the immediate and powerful heating of the cold air that is admitted to the outer surface from the atmosphere outside the building through the tubes for that purpose

4 The great economy in the use of fuel making and controlling more heat than by any other process of using it—the radiating surfaces being and continuously in contact with the radiator and evaporating pan through which the whole current of heat can be turned at pleasure, exhausting the whole into the surrounding air before it leaves the furnace and so much so as to be controlled at will

5 The heat (at least) must be this furnace is—I can be dispensed of and ashes easily in them the necessity of taking down or removing a joint in its parts is simple—is easily understood and managed as an exploder stove and as the [illegible] repaired and kept in order

6 The stove for sale only at my FIRE STORE Nos 17 & 19 Central Street, Bangor,—where the kinds of certificates can be seen from those who are using the furnaces

DR. UPHAM'S Vegetable Internal Remedy FOR THE PILES!

A Cure or Life secured.

For the cure of Piles Inflammation of the Liver and Bowels Inflammation, Soreness and Ulceration of the Stomach, Dysentery, Kidney and Bladder Inflammatory and Mercurial Rheumatism, Impurity of Blood Weakness and Inflammation of the Spine, and for the relief of Married Ladies.

THE VEGETABLE PILE ELECTUARY, invented by Dr A Upham, a distinguished Physician of New York city, is the only real and sure remedy for that dangerous and distressing complaint, the Piles, ever offered to the American public

Mark this it is an INTERNAL REMEDY—not an external application, and will cure any case of Piles either bleeding or blind, internal or external and positively the only thing that will There is no mistake about it It is a positive cure—certainly and permanently It is also a convenient medicine to take, and improves the general health in a remarkable manner

Hundreds of testimonials have been given, and it is very mild in its operation. And may be taken in cases of the most acute inflammatory without danger. A large number of testimonials in the highest degree decisive, inconvenient and offensive and yet so absolutely sure of the disease, temporary in their effects. The Hemorrhoids attack the disease at its source, and, REMOVING THE CAUSE, renders the cure CERTAIN and PERMANENT

INFLAMMATORY DISEASES

Although this ELECTUARY was originally applied for the Cure of Piles, yet it has proved itself a medicine far superior to all others in all diseases of an inflammatory character, with a determination of blood to any particular part or organ, as in Congestion and congestive of the Liver and Spleen, Inflammation, Scirrhus and Ulceration of the Stomach Bowels Kidneys and Bladder in all inflammatory Rheumatism and Neuralgia, in the Blood and even gout

IMPURITIES OF THE BLOOD!

For all impurities of the Blood, arising from the present use of Mercury & other diseases, for all diseases of the Skin and Scrofulous Affections, that cause the whole blood to powerfully debilitate and ruin the blood, producing diseases and distress DR UPHAM'S ELECTUARY is entirely unrivalled

TO MARRIED LADIES

Married Ladies are should invariably pull per to the unnatural and injurious decrease, the PILES, will cause quency inflammation of the Stomach Bowels and Spine, weakness of the back, flow of blood in the hair, &c &c. The Electuary is perfectly safe for Pregnant Ladies, and the most useful Cathartic that can possibly be used, as it will not only remove the Piles and all inflammatory diseases, WITHOUT PAIN OR HINDRANCE but will counteract any tendency to miscarriage and a sound constitution is the offspring

CURE FOR LIFE GUARANTEED

The Electuary costs but NO MERCURIAL Medicine nor Aloes Colocynth Gamboge, or any other powerful and injuring purgative No Gamboge taking cold shut up the air tube inflammation, no cough, no hurtful ingredients to cause accidents A CURE FOR LIFE IS GUARANTEED

Pamphlets give a valuable information respecting this Medicine may be had of Agents, or the Dr GRADDON 130 Washington st Boston Genera Agent for the New England States

GREAT SUCCESS OF UPHAM'S
PILE ELECTUARY.

Portsmouth N. H., March 15 1847

Dr Upham—My dear Sir I cannot but feel in you my sincere and heartfelt thanks for the wonderful cure I have experienced by the use of your truly valuable Electuary I have been a perfect martyr to Bleeding Piles for 10 years past, so much so that I became unable to walk or stand without the aid of opiates and anodynes of a narrative original. My case was so completely out and desperate I was in my opinion I had all to give up my business. The first I knew of your Electuary was from a friend who had tried it and pronounced it a most wonderful cure. I was induced to try it, and purchased a second, and I assure you when I got to the bottom I found myself getting well and I kept on, and now I am a sound man My doctor, language cannot express the heartfelt thanks that I am using more or stored to but I shall now in a condition to support my large family, so I send out on the

DR. S. O. RICHARDSON'S
CONCENTRATED
Sherry-Wine Bitters.

THE Proprietor of this medicine offers to the public the result of an extensive practice and a thorough investigation of the laws which govern the human system.

It cannot be denied by those who have become acquainted with the singular virtues of these Bitters that they possess a pre eminence over all others now in use for the diseases which they profess to cure

It is a well known fact, that most diseases arise from a derangement of the Stomach and Bowels, in youthful adult and declining life

The extensive sympathies which exist between these and every other part of the living body, form the foundation of Nervous Diseases of all kinds—Irritability, Appetite, Languor Lowspirits, Wandering Pains, Headache, Lowness of Spirits, &c

And these, in the future give birth to Dyspepsia, Palpitation of the Heart, Shortness of Breath, Jaundice, Piles Fever, Inflammatory Humors, Coughs and a host of diseases which embitter life and poison all sources of enjoyment

This distinguishes character of these Bitters is most striking, their operation being more or less powerful, according to the violence of the disease When used in appropriate quantity in cases of slight derangement of the Stomach and Bowels, they will be found equal to a dight bilious difficulty and the like, where patent medicines are taken in preference more serious consequences, they will be scarcely felt

On the contrary, in obstinate cases, they frequently operate more powerfully causing rather three evacuations daily until the circulating fluid becomes purified This accomplished they act on the system in connection with our food, each receiving mutual assistance until the constitution is restored to a state of health and renewed vigor

THE

GRAEFENBERG PILLS.

THERE ARE THE MOST CONCLUSIVE REASONS why that class of Medicines denominated "PATENT," should be made the means of inestimable and enduring blessings to the human family. Suppose, for example that a pill in order of extent, long and extensive observation, and great medical learning and experience are brought to bear upon the invention and manufacture of a PILL. Why may not this long devotion to this department of medical science be stamped with the success that attends the exercise of similar talents and skill in other things? There is no reason, and it is but the simplest dictate of the simplest common sense to say that a Pill thus produced will be a perfect article as can be made by man *Twenty-five years devotion to any one subject will give a man of ability the mastery over it.* This labor has been bestowed upon the

Graefenberg Vegetable Pills

and they are presented to the public with claims unparalleled in the whole history of medical science

It will be seen, in tracing the history of all great inventions, that they were not made or discovered until the arrival of what may be termed, the FULness of time The mechanic compass, for instance, was not invented until in the "fullness of time" it was needed to conduct and direct the ships at man's fleet, but he never knew what a wonderful and unerring guide was thus placed in his silent bosom, until the Divinity appointed the time and hour when it should conduct and islands west to be discovered Behold it now transferred to the binnacle of the adventurous sailor, enabling him to launch far away upon unknown Oceans, instead of timid creeping from one familiar land-mark!

So with the discovery of the New World, upon whose shores was to arise this Great Nation to a power, a glory, a wisdom far beyond the conception of the wild east fancy The Old World reached its highest and they the "fullness of time" threw near for the revolution of the New, and behold the immortal Columbus from the place of his obscurity and lofty research, found it So with the invention of printing, of steam, and the magnetic telegraph Each of these had its own "fullness of time," ripened, matured and Providential!

☞ In MEDICAL SCIENCE the same CLEAR PHILOSOPHICAL PRINCIPLE IS EQUALLY MARKED Most beautiful are the illustrations and proofs of this which are to be found in the history of the world We can trace them from the Mosaic dispensations down to the present hour, all of them teaching us the lesson and giving us the belief that *something yet better to heal human misfortune is at hand*

That this principle is as true of Medical as of Physical science is clearly shown in the

GRAEFENBERG GAZETTE,

which is furnished gratuitously to all who wish it—The

Graefenberg Pills,

are deemed by all who have tested them to be an invaluable addition upon a little medical combinations and discoveries hitherto known, and they are announced as

THE GREAT REMEDIAL TRIUMPH.

The inventor of these Pills feels his theory upon so school no degree of ordinary medical teachers Flatting himself upon the revelation of the

ALMIGHTY CREATOR,

"THE BLOOD IS THE LIFE!"

he requires that his disciples and his pills make pure the life-current of all people through their veins and arteries, before they can hope for a cleansing of sure Relief he can give them and so can others, but bright and lasting they can not come from a pure blood.

But most of the pills now in use are Mercurial So dangerous are the strong potions which are practiced upon the public by pretenders and so numerous and boastful are the vendors of quackery, that the render may be slow to believe in this Great Remedy A word, therefore, on this point

The Most Extraordinary Medicine in the World!

This extract is put up in quart bottles, it is now is not cheaper, pleasanter, and warranted superior to any sold. It cures diseases without vomiting, purging sickening or debilitating the patient

The great beauty and superiority of this Sarsaparilla over all other medicines is, while it eradicates diseases it invigorates the body It is one of the very best Spring and Summer medicines ever known, it not only purifies the whole system and strengthens in its power, but regenerates new, pure and rich blood, a power possessed by no other medicine And in this has the great secret of its wonderful success It has performed wonders in the past two years, more than 33,000 cures of several cases of disease, at least 6000 of these were considered incurable More than

3000 cases of Chronic Rheumatism,
2000 cases of Dyspepsia,
1000 cases of General Debility and Want of Energy,
700 cases of the different Female Complaints,
1000 cases of Scrofula,
1500 cases of the Liver Complaint,

This we are aware, must appear incredible, but we have letters from physicians and our agents from all parts of the United States, informing of extraordinary cures R Van Buskirk, Esq, one of the most eminent druggists in Newark, N J, informs us that he can name more than 100 cases in that place alone Three hundred of cases in the City of New York, and thousands of cases in the City of Philadelphia, and in the Middle and Southern States, the most of cases of disease known It undoubtedly saved the lives of more than

5 CHILDREN, THE PAST SEASON,

as it removed the cause of disease, and prepared them for the summer season.

☞ UNITED STATES OFFICER

Capt G W. McLean, of the United States Navy, and member of the New Jersey Legislature, has kindly sent us the following certificate It is in his own story

THREE CHILDREN

Dr Townsend Dear Sir—I have the pleasure to inform you that three of my children have been cured of The Scrofula by the use of your excellent medicine—They were afflicted very severely with it and have taken some four bottles, it took them about a month I feel myself under deep obligation Yours respectfully,

Brooklyn, Jan 3 1845.

TO MOTHERS AND MARRIED LADIES

The extract of Sarsaparilla has been expressly prepared in reference to female complaints. To females who has reason to suppose she is approaching that critical period of life, "the turn of life," should not let the opportunity slip without using every means for any of the numerous and horrible diseases to which she is now subject at this time of life This period may be delightful or the reverse, according to the manner in which the blood and nervous system is approaching woman hood, so it is only kind to assist nature by quickening the blood and invigorating the system In fact this medicine is invaluable for all of the delicate diseases to which women are subject It purifies the whole system, remove permanently the natural energy—by removing the impurities of the body, but not by fatiguing the system as to produce a subsequent exhaustion—which is the case of most medicine taken for female weakness and disease

GREAT FEMALE MEDICINE

Dr. Townsend's Sarsaparilla as a sovereign and speedy cure for Incipient Consumption, Scrofula, Leucorrhea, fly Whites, obstructed or difficult Menstruation, Leucorrhoea of Ovum, or in voluntary discharge thereof, and for the general purification of the system—no matter whether the result of inherent cause or cause produced by irregularity, illness or accident

Nothing can be more surprising than the cures and effects on the human frame Persons subject to weakness and debility, from taking it, at once become robust and full of new energy and vigorous Its time distinctly counteracts the nervousness of the female frame, which is the great cause of barrenness

It will also be found of use, in cases of so decided a nature, to exhibit satisfactory evidence of its powers, but we can assure the afflicted that hundreds of cases have been reported to us Several cases where families have been without children, after using a few bottles of this invaluable medicine have been blessed with a healthy offspring

Dr Townsend My wife being greatly distressed by weakness and general debility and suffering continually by pain and a sensation of bearing down, falling of the womb, tried in vain other difficulties, and any agency cures where your medicine has effected great cures, and also having it recommended for such, I have described Sixteen hundred bottle of your Extract of Sarsaparilla, and followed the directions you gave me Its short period it removed her complaints and restored her to health Being grateful for the benefits received, I feel it my duty to make to the acknowledging to it Yours respectfully, B B BOOBE

CAUTION!

Owing to the great success and immense sale of Dr Townsend's Sarsaparilla, a number of persons who were formerly our agents, have commenced making Sarsaparilla Extracts, Elixirs, Bitters, &c They generally put it up in same size bottles, and copy our certificates and advertisements, claiming that their article is superior and four times stronger than Dr Townsend's, &c, hoping thereby to deceive the public Some use fictitious names, a few use their own, some of these unprincipled men publish counterfeit certificates, others have put out their handbills and other interested persons
